

FINE ART PRINTS

From the Abandoned Collection, this image is finished in classic sepia tones to capture both the time when it was carved and the effect time and weather has had on its surfaces.

WELCOME

Every print is a work of art. Every print we create is subject to the same careful attention to detail, and a relentless pursuit of perfection. These aren't photographs. They are a visual invitation to an emotional experience.

Whether you invest in our uniquely crafted Obsidian Prints, or one of our photographic prints, each print is created using acid-free ink and museum quality paper. Unlike most traditional photographic prints, these are crafted to retain their detail and rich colors for generations to come.

We offer three different categories of prints. For the novice or first-time collector, or for someone who appreciates the value of a high quality print, we offer our Graphite series. For the more experienced collector, or for the person who is committed to appreciating art, we offer our Onyx series. For the most discerning collector, we offer the ultimate in still image prints: our Obsidian series. And finally, for the collector of figuratives, we offer the Black Opal Collection which includes our unique Caravaggio series.

This guide will assist you in selecting the print category that best serves your interests. If you have any questions or need further information, please contact us either by phone (215-740-7661) or via email (inspiration@nyght-falcon.com).

OBSIDIAN

Fashioned using a one-of-a-kind process specific to and developed by The House of NygthFalcon, each Obsidian Print is a unique work of art. Crafted using museum quality papers and pigment inks, an Obsidian Print will last 200 years of more. As a painter patiently adds color to a canvas, each print we produce is a patiently crafted emotional experience unique unto itself. Every print is created one at a time, over a period of days. Each step in the process requires patience and diligence. The result is a print unlike any other.

Our Obsidian prints are available in two categories: Innova Fine Art Papers, from matte cotton to a high metal gloss, and in a variety of Japanese papers from Awagami. If you select a print on Awagami's papers, we will work with you to select the paper most suited for your collection. Awagami papers range from a textured, hand-made paper to the ultimate experience of Murakumo Kozo Natural Select paper. Each Obsidian Print is rendered at more than four times the resolution of virtually all other fine art prints. This assures that even the most delicate texture, the most intricate detail, will further the emotional experience.

No image is ever printed more than 25 times, and The House of NygthFalcon owns numbers 1 and 25. All prints are guaranteed for life. Each print will retain its detail, color and texture, as long as the images are properly displayed or collected. If a print becomes damaged by fire or water or is stolen, we will replace the print at no cost, provided we receive appropriate proof of loss. Each print is signed, numbered and accompanied by a Certificate of Authenticity.

If you wish, we can provide samples from which you may ultimately select your Obsidian Print. All samples are provided on A4 paper. A small service fee for each sample print is applied to your final purchase. Given the labor intensive process by which we will create your print, please allow 30 days for delivery.

BLACK OPAL

For the most discerning collector, we offer our Black Opal Series. Many of the images in this series feature one-of-a-kind finishes crafted to capture the emotional experience of a 17th Century painting. Among these are those offered in the Caravaggio Collection. As many as 17 layers are applied in order to create the finished image.

Like our Obsidian prints, these are available in two categories: Innova Fine Art Papers, from matte cotton to a high metal gloss, and in a variety of Japanese papers from Awagami. If you select a print on Awagami's papers, we will work with you to select the paper most suited for your collection.
